Recommend Refusal on the grounds that:-

- **This is in the boundary of a listed building with a burgage plot garden in the Conservation area. This burgage plots should be protected as per planning policy details below:-**

South Staffordshire Design Guide (2018) Key Development Design Principles: Kinver

21.7 (particularly paras C and i)

c. Authenticity of infill development. The compact, attractive historic core requires new development adopting a historicist form to ensure that elevation details are convincingly authentic, particularly in terms of window form, and openings, depth of reveal, materials and street scape proportions.

i Back land and 'burgage' plot development. Development design of back land sites, including car parking, should retain the narrow, linear form and planting to avoid large unstructured expanses of open land. However development on burgage plots may be unacceptable in principle as the plots and the layout that they create are very important elements of the "special historic interest" of the conservation area.

the importance of retaining the burgage plots is made clear in the Conservation Area Management Plan (SSDC 2010), the nearby appeal (mentioned in the application) where a burgage plot was found to be difficult to trace is of no relevance here as the modern boundaries are clearly traceable on historic mapping dating back to the 1830s and retain their medieval form.

- This development would have a significant detrimental impact on this listed building property.
- It is an overdevelopment of the site, due to its bulk, mass.
- The materials and height of the proposed dwelling are totally out of keeping with the surrounding properties.
- No flood risk assessment is attached and this area is a floodplain for the river Stour.
- The proposed balcony is totally inappropriate in this location and would remove privacy for all of the surrounding properties.
- The application states there are no trees on the site, there is a tree screen at present in situ along the length of the garden.
- All applications in the Conservation Area should be accompanied with a Heritage statement - must be produced by an expert on heritage and conservation issues. Any application that is received without, should not have been validated.
- It also is contrary to Greenbelt Policy (GB1) and is within the conservation area. There are no special circumstances to allow this development.
- Additional housing such as this is not required as a large development will be starting in Kinver shortly with mixed housing as per the SAD documents.
